This just goes to show how greedy they are, and what it might do to our Home Town Banks.

Why don't they just use the Money they would spend on this, and give their employees a BIG RAISE, SO THEY COULD AFFORD WALMARTS HEALTH INSURANCE, THAT WOULD GET THEM OFF THE MEDICARE ROLLS!!

Walmart tells its Employees when they hire them, to sign up for Medicare and how to do it. How low can the owners of Walmarks go???

The FDIC under this Administration, will probably look the other way, and let this ""Greedy Walmart Family"" go ahead with this Dangerous Concentration of Financial Power.....STOP THEM NOW!!!!!!
